Ohio E.P.A. - N.E District Office  
Attention: Melinda Becker  
2110 E. Aurora Road  
Twinsburg, OH 44087

Dear Ms. Becker:

Attached is a copy of our revised Hazardous Waste Permit Application to reflect actual site capacity and usage.

This reflects various conversations with Jack McLellan and Paul Robbins.

S01 - 50 drums - 2500 gallons  
S02 - Tanks - None

Tank storage as indicated on original and revised applications has never been used for storage of a hazardous waste, therefore, no closure procedure is necessary or applicable.

I hope this will answer any questions. We will be looking foreward to hearing from you in the future.

Very truly yours,

OHIO RUBBER COMPANY
